(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Farmington, New Mexico November 27, 1953

Well No. 2 is located 790 ft. from N line and 990 ft. from E line of sec. 22

SW 1/4 of Section (1/4 Sec. and Sec. No.) T-27-N R-10-W NMZN
(Twp.) (Range) (Meridian)
Wilcox San Juan New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 6223 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Approval is hereby requested to change the designation of the above well to the following:

Evil E. Martin "D" Well No. 1

12-7-52 To change name and well authorization from "unit" to "lease" basis. Completed 2/3/52 as Gas Well. Since non-commercially completed, well ~~will~~ must revert to "lease" status as U.S.G.S. will not permit forming a participating unit area for this well.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Stanolind Oil and Gas Company

Address Box 457

Farmington, New Mexico

Title Field Superintendent

The following information is provided for your reference:

1. The first section of the document contains a detailed description of the project's objectives and scope.

2. The second section outlines the methodology used for data collection and analysis.

3. The third section presents the results of the study, including key findings and conclusions.

4. The final section discusses the implications of the research and offers recommendations for future work.

The data presented in this report is based on a comprehensive review of the available literature and primary research conducted over a period of six months.

The findings indicate that there is a significant correlation between the variables studied, which supports the hypothesis that was tested.

It is important to note that the study has several limitations, including a relatively small sample size and a cross-sectional design.

Despite these limitations, the results provide valuable insights into the relationship between the variables and have important implications for the field.

The authors would like to thank the funding agency for their support and the participants who made this study possible.
