

New Mexico Oil Conservation Commission

1000 RIO BRAZOS ROAD
AZTEC, NEW MEXICO

January 20, 1959

*Mr. J. J. Inskip
742 Willow Street
Long Beach, California*

Dear Mr. Inskip:

In checking our files we find that to date we have on file only an office of intention to drill on the Alex M. Campbell #1 Federal well in the SW Section 23-27N-12E.

In order to approve this well for production we will have to have on file the following forms:

Two copies of Concurrence C. Notices on casing tests;

Two copies of Federal Well Record Form;

New Mexico Oil Commission Forms O-104, Request for Allocation and O-110, Authorization to Transport in quadruplicate.

If we can be of any further service, please contact us.

Yours very truly

*Emery J. Arnold
Supervisor, District #3*

New Mexico Oil Conservation Commission
1000 Rio Bravo Road
Albuquerque, New Mexico

Dear Sirs:

I am writing to you regarding the oil conservation commission's recent findings on the oil reserves in the state of New Mexico. The commission has determined that the state's oil reserves are significantly lower than previously reported, and this has led to a re-evaluation of the state's oil production and distribution policies.

The commission's findings are based on a comprehensive analysis of the state's oil reserves, which includes a review of the state's oil production and distribution records, as well as a detailed examination of the state's oil reserves. The commission has found that the state's oil reserves are significantly lower than previously reported, and this has led to a re-evaluation of the state's oil production and distribution policies.

Mr. Emery C. Arnold, Supervisor
N.M. Oil Conservation Commission
Aztec, New Mexico

Dear Emery,

What reports and forms do you wish me to file with you
on Alex N. Campbell #1 Federal SESE 23, 27 N - 12 W N.M.P.M.,
in addition to those being filed with Phil McGrath ?

Best regards.

Very truly yours,

W. D. Inskeep
