DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It was originally intended to complete this well in the Mesa Verde & Dakota formations. It is now intended to set 3 1/2" casing and complete this well in the Dakota formation only.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
