**NAVAJO TRIBE "AA" WELL NO. 1
SAN JUAN COUNTY, NEW MEXICO
APPLICATION FOR DUAL COMPLETION**

Mr. A. L. Porter
New Mexico Oil Conservation
Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Sir:

In accordance with the provisions of New Mexico Oil Conservation Commission Rule 112-A, as revised by Order No. R-1214, we are herewith requesting approval to dually complete our subject well in the Pictured Cliffs and Dakota Reservoirs. This well is located in Unit P, Section 19, Township 27 North, Range 11 West, San Juan County, New Mexico. Both of the gas zones in this proposed dual completion are recognized by the Commission as being suitable for dual completion in San Juan County, therefore, as provided in Section II of the Revised Rule 112-A, we request that this application be approved without notice or hearing.

Attached hereto please find in duplicate, Application for Dual Completion, Diagrammatic Sketch of Dual Completion, Packer Setting Affidavit, and Plat showing location of our Navajo Tribe "AA" Well No. 1, including offset leases with names of applicable operators.

By registered mail, we are sending a copy of this letter, together with copies of the Plat and Application for Dual Completion, to all offset operators.

Your cooperation in this matter will be very much appreciated.

Yours very truly,

TEXACO Inc.

PACKER-SETTING AFFIDAVIT
(Dual Completions)

STATE OF New Mexico)
County of San Juan) ss

C. H. McCool, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by TEXACO Inc. in the capacity of Asst. Dist. Sup't. and as such is its authorized agent.

That on March 2, 19 60, he personally supervised the setting of a Baker Model "F" Packer in TEXACO Inc.'s
(Make and Type of Packer) (Operator)

Navajo Tribe "AA" Well No. 1, located in Unit
(lease)
Letter P, Section 19, Township 27-N, Range 11-W, NMPM,
San Juan County, New Mexico.

That said packer was set at a subsurface depth of 1830 feet, said depth measurement having been furnished by Baker Oil Tools, Inc.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

TEXACO Inc.

(Company)

C. H. McCool
(its Agent)

Subscribed and sworn to before me this the 25th day of April, AD, 19 60.

F. E. Brock
Notary Public in and for the County
of San Juan

My Commission Expires November 22, 1961.
