Attention: Peggy Bradfield

*Administrative Order NSL-2817*

Dear Ms. Bradfield:

Reference is made to your applications dated May 3 and May 7, 1990 for a non-standard Basin-Fruitland coal gas well location for your existing Cleveland Well No. 2 which was drilled in mid-1955 and completed in the Fulcher Kutz Pictured Cliffs Pool at a standard gas well location 1090 feet from the South line and 790 feet from the East line (Unit P) of Section 20, Township 27 North, Range 9 West, NMPM, San Juan County, New Mexico.

It is my understanding that the Pictured Cliffs zone will be properly plugged back and said well will be recompleted to the Basin-Fruitland Coal Gas Pool, which pursuant to the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool as promulgated by Division Order No. R-8768, is unorthodox. Further, the E/2 of said Section 20 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of said Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

William J. LeMay  
Director
