1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The second is the fact that the majority of the population is now living in the South and West. This is a result of the process of migration, which has been going on since the beginning of the 20th century. The third is the fact that the majority of the population is now living in the middle class. This is a result of the process of social mobility, which has been going on since the beginning of the 20th century.
