13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

We purchased this well in October, 1993. Since it has not produced since 1983, we had been unable to locate some of the current working interest owners until recently. Due to deaths, the interests are now split among several people. We have now made contact with all of them and are in the process of negotiating an agreement with them.

It is our intention to plug and abandon this well as soon as we are able to obtain agreements from all of the owners.

Because of the difficulties that we have had in finding all of the owners of the well, we request that we be allowed until June 30, 1994 to complete the plugging and abandonment of this well.
