Dear Mr. Merrill:

We have received your Application for Downhole Commingling of the Gallegos Fruitland Sand and West Kutz Pictured Cliffs formations in the above mentioned well. After review, we hereby approve your application for downhole commingling and the submitted allocation factors. The effective date is the date that downhole commingling occurs. The approved allocation factors are:

Gallegos Fruitland Sand	50% OIL	7% GAS
West Kutz Pictured Cliffs	50% OIL	93% GAS

As per a telephone conversation on March 15, 2000, the gas production is being reported using the wrong allocation factors and corrections are necessary.

If you have any questions, please contact Wayne Townsend with this office at (505) 599-6359.

Sincerely,

/s/ Charlie Beecham
