

OIL CONSERVATION COMMISSION

1000 RIO BRAZOS ROAD

AZTEC, NEW MEXICO

July 13, 1962

*Frontier Refining Company
4040 East Louisiana Ave.
Denver 22, Colorado*

Attn: Mr. D. Morrison

*Re: Request for Gas Allowable,
Government-Evensen "G" #3
G-19-27N-10W*

Dear Mr. Morrison:

*Your letter of transmittal for subject form states that all
load oil is not yet recovered from this well. When all load oil
is recovered from subject well please file corrected Form C-104
showing potential after recovery of load oil.*

Yours very truly

*A. R. Kendrick
Engineer, District #3*

July 11, 1962

New Mexico Oil Conservation Commission
1000 Rio Braxos Road
Aztec, New Mexico

Attention: Mr. Al Kendrick

Dear Sir:

In August, 1961, we completed our Government Evensen No. 3-G, located 1765' fnl, 1850' fel of Section 19, T27N, R10W, San Juan County, New Mexico, in the Angels Peak Gallup Pool.

Connection to the El Paso Natural Gas Co. gathering system was not accomplished until March, 1962, and this well has since been recovering load oil. As of July 1, 1962, only 43.92 barrels of load oil remained unrecovered, and it is anticipated that this load oil will be recovered during this month.

A review of our files indicates that all necessary forms and information concerning this well have been filed with the New Mexico Oil Conservation Commission, but that Form C-104 was erroneously filed as a request for gas allowable. A corrected Form C-104, Request for Oil Allowable, is attached, and we request allowable assignment for this well at your convenience.

If any additional information concerning this well is desired by the Commission, please do not hesitate to contact us; we will gladly supply any information you desire.

Yours very truly,

THE FRONTIER REFINING COMPANY

D. Morrison
Petroleum Engineer
