DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

This well was originally drilled by Shelly Oil Company as the Gentle #1-A. This well is within the limits of the Euerfanito Unit, therefore El Paso Natural Gas Co. has taken over the operations of this well with name changed to the El Paso Natural Gas Co. Gentle No. 1-A.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
