February 24, 1964

Mr. Emery C. Arnold  
Oil Conservation Commission  
1000 Rio Brazos Road  
Aztec, <sup>N</sup>ew Mexico

Dear Mr. Arnold:

A Regulator has been installed on the following well since the 1963 annual deliverability test:

John A. Egan # 3 Marron, O-24-27-8

A Comparison between the 1963 annual deliverability test and the 1964 annual deliverability test is as follows:

# 3 Marron  
1963: 244

1964: 482

Since the 1964 annual deliverability test more truly reflects the deliverability of this well please consider the 1964 test also as 1963 re-test and make allowable changes to the 1964 annual test effective February 1, 1964.

Yours very truly,

*W B Smith*

John A. Egan

By: Wayne B. Smith, Agent
