Re: Navajo Tract A #1
C-10-27"-17"
San Juan County, New Mexico

Dear Mr. Armstrong:

All the information available to us shows that the above well was never produced into the pipeline which was laid by Ingueiro Oil Company. Mr. John Cunningham said that the line was installed in anticipation of an agreement with representatives of the Tribe. We will consider this matter closed for our purposes.

On the matter of testing the well, we would like to make arrangements at this time to meet a representative from your office at the above well and test it for communication between zones. Please call me at the above phone number so that we can set a time and date.

Yours truly,

W. L. King
Director

Frank W. Chavez
County Engineer
