Memorandum

To: Bureau of Indian Affairs, Navajo Area Director, Window Rock, AZ
From: FOR Area Manager, Farmington Resource Area
Subject: Leaking Gas well on terminated Navajo Tribal lease 14-20-0603-927

Reference is made to well No. 1 Navajo Tribal 4, NE/4NW/4 sec. 20, T. 27 N., R. 17 W., San Juan County, New Mexico, on terminated Navajo Tribal lease 14-20-0603-927. This well was found to be leaking gas during an inspection conducted with Amerada Hess on May 14, 1991. This well has been shut-in since 1977 and we recommend that it be plugged and abandoned.

Called Bernal Shresia 3/10/99 about the above well.
The Tribe is currently working to transfer the well to Paul Styron as well as land on the mountain for Helium production. The also recommended to the BIA that the Beautiful Mountain leases be extended so the plans can be approved & completed.
