RE: Well location SE/4 section 14, T.27 N, R.10 W,
Angel Peak Area, San Juan County, New Mexico

Gentlemen:

This will acknowledge your letter of July 16, 1952 in which you refer to an unorthodox location to be made 440 feet from the east line and 420 feet from the south line of section 14, T.27 N, R.10 W. The well, a proposed Pictured Cliffs test, is located outside the spacing restrictions as established for Pictured Cliffs wells because of topographic conditions.

Your location is approved subject to the approval of the U. S. Geological Survey.

Very truly yours,

R. R. Joursier
Secretary and Director
