Re: Location of Skelly Government  
(Skelly State?) #1 - Southeast  
Quarter of Section 16.

Dear Mr. Carter:

The original notice of intention to drill showed a lease designation of "Skelly Government" for the above well. The well location plat showed a lease designation of "Skelly State" and showed it to be located 1175 feet from the South line and 1035 feet from the East line of Section 16. Form C-103, filed on September 23, referred to this well as Skelly State and indicated the same location; however, we have now received a well record form which indicates that the well is located 1840 feet from the South line and 1950 feet from the East line. If the location for this well was moved, please refile Form C-128 in triplicate showing the corrected location. If the original location is correct, please notify us. We presume that you wish to call it the Skelly State #1. Please verify this fact.

Yours very truly,

Emery C. Arnold, Supervisor District #3
