Mr. Loren Fathergill  
El Paso Natural Gas Co.  
P.O. Box 990  
Farmington, NM 87401

Re: Morris #1 P-15-27N-10W

Dear Loren;

The 1983 deliverability test on the referenced well has casing shut in and flowing pressures which are virtually the same, indicating a possible casing leak. Please schedule a special bradenhead test as soon as possible. Notify this office prior to test, so we may witness it.

Yours truly,
