We'd appreciate getting any correspondence the OCD may generate on this issue.  
We'll do likewise. Thanks JL

Frank,  
Here's the info. on the assignment of operating rights from Burlington to  
Energen. It appears that Burlington no longer has any operating right interest  
in the acreage in question. As such, their well may have to shut-in unless some  
other info surfaces or an alternative can be developed. Get back with me when  
you get a chance. Thanks JL

Geneva,

In regards to operating rights assignment NMSF 077875, filed May 19, 1997, dated  
June 23, 1997, and approved effective June 1, 1987.

The formations and percentage Burlington Resources Oil & Gas Co., assigned to  
Taurus Exploration U.S.A., Inc., (now Energen) are as follows:

T. 27 N., R. 10 W., NMPM  
sec. 8: NW1/4, SE1/4  
sec. 17: NW1/4  
containing 480.00 acres, more or less

PICTURED CLIFFS FORMATION, GAS RIGHTS ONLY

Burlington owned 100%      Burlington conveyed 100% Burlington retained 0%

T. 27 N., R. 10 W., NMPM  
sec. 17: W1/2  
containing 320.00 acres, more or less

FRUITLAND COAL FORMATION, GAS RIGHTS ONLY

Burlington owned 100%      Burlington conveyed 100% Burlington retained 0%

San Juan County, New Mexico

It is the intent of the Transferor to convey all its right, title and interest  
in this lease, only as to specific lands and formations described herein.

If you need more information, please let me know.

Thanks,

Liza
