Dear Mr. Spurrier:

This location is in the head of a narrow box canyon at the foot of the north side of Angel Peak. High canyon walls are on three sides. Therefore, I recommend that their location be approved as described in their Notice of Intention to drill of September 4th, which is 1650' from the South line and 2310' from the West line of Sec. 14, T. 27N., R. 10W.

Very truly yours,
