DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate muddling jobs, cementing points, and all other important proposed work)

Due to conflicting names of wells recently acquired from Byrd-Frost, Inc.,
it is intended to change the name of the above well to the Pipkin No. 3.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
