Mr. P. T. McGrath  
District Engineer  
U. S. Geological Survey  
P. O. Box 965  
Farmington, New Mexico

Dear Sir:

We are transmitting herewith two copies of the final log, Form 9-330, "Log of Oil or Gas Well" for Angel Peak Unit #1, Sec. 15, T-27-N, R-10-W, Wildcat.

Also included are two copies of all logs taken on this well.

Very truly yours,

A handwritten signature in cursive script that reads "L. O. Speer, Jr.".

L. O. Speer, Jr.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for a systematic approach to data collection and the importance of using reliable sources of information.

3. The third part of the document discusses the challenges and limitations of data collection and analysis. It notes that while data is essential for decision-making, it is not always easy to obtain or interpret, and there are often significant costs associated with data collection.

4. The fourth part of the document provides a detailed overview of the data collection process, from identifying the data needs to the final analysis and reporting. It includes a flowchart that illustrates the steps involved in the process.

5. The fifth part of the document discusses the importance of data security and privacy. It emphasizes that organizations must take appropriate measures to protect their data from unauthorized access and ensure that it is used in a responsible and ethical manner.

6. The sixth part of the document provides a summary of the key findings and conclusions of the study. It highlights the importance of data in decision-making and the need for organizations to invest in data collection and analysis capabilities.
