SUNDRY NOTICES AND REPORTS ON WELLS JAN 3 4 1952

NOTICE OF INTENTION TO DRILL	SUBSEQUENT REPORT OF WATER SHUT-OFF
NOTICE OF INTENTION TO CHANGE PLANS	SUBSEQUENT REPORT OF SHOOTING OR ACIDIZING
NOTICE OF INTENTION TO TEST WATER SHUT-OFF	SUBSEQUENT REPORT OF ALTERING CASING
NOTICE OF INTENTION TO RE-DRILL OR REPAIR WELL	SUBSEQUENT REPORT OF REDRILLING OR REPAIR
NOTICE OF INTENTION TO SHOOT OR ACIDIZE	SUBSEQUENT REPORT OF ABANDONMENT
NOTICE OF INTENTION TO PULL OR ALTER CASING	SUPPLEMENTARY WELL HISTORY
NOTICE OF INTENTION TO ABANDON WELL	

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Farmington, New Mexico, January 22, 1952

Well No. 1 is located 990 ft. from N line and 990 ft. from E line of sec. 15

15/4 of Section 15 T-27-N R-1-E 111W
(14 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Wildcat San Juan New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 6329 ft. (C.L.)

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate muddling jobs, cementing points, and all other important proposed work)
Well was drilled to a total depth of 6043 feet with rotary tools, December 28, 1951. Logs and drill stem tests failed to indicate commercial production from total depth to the base of the Aneto formation at 6000 feet. Well was plugged back from total depth to 6003 feet with solid cement. In January 4, 1952, at 2100 P.M., 7" casing was set at 6570 feet with 240 sacks of cement. Plug down at 5116 P.M., January 4, 1952. Temperature survey was run January 5, 1952, and top of cement outside of casing was at 5700 feet. At 6120 P.M., January 6, 1952, casing and water shut-off were tested at 1000 pounds pump pressure for 30 minutes. No drop in pressure. Thirty-six feet of solid cement was drilled in bottom of pipe and water shut-off again tested at 1000 pounds for 30 minutes. No drop in pressure. Drilling operations were resumed.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
