504 Airport Drive
Farmington, New Mexico

Re: Max Coll II #1 Rex
NW¹ Section 18-27N-13W

Dear Sir:

Copies of Federal Notice of Intention to Drill were received in this office May 18, 1960. No further information has ever been received in this office. We have learned from the U.S.G.S. that the well was drilled to a total depth of 665 feet. They also indicate that the well was plugged and abandoned on August 31, 1960; however the proper forms have never been filed with their office subsequent to plugging and abandoning.

Will you please file 5 copies of Federal miscellaneous report forms showing that the well was plugged and abandoned, along with 5 copies of Federal Well Record form so that they may forward our copies to this office and we may close our files on this well.

Yours very truly

Emery C. Arnold
Supervisor, District #3
