San Juan County, Utah

In reference to your letter on February 14, 1979; no workover has been done on the referenced well since The Superior Oil Company took over operations on April 1, 1978. The well has been downhole commingled from what is thought to be a packer leak between the Blanco-Mesa Verde and Basin Dakota producing zones. Permission on August 12, 1975 (Case No. 5526, Order No. R5075) from the Oil Conservation Commission of New Mexico to commingle the two zones was received by Austral Oil Company.

If more information or details are needed please advise.

Very truly yours,

THE SUPERIOR OIL COMPANY

J. R. Oberlander
