(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

March 25, 1952

Well No. 12 is located 990 ft. from N line and 1650 ft. from E line of sec. 10
NW of Sec. 10 27 N 12 W N.M.P.M.
 (4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
West Kuts Canyon San Juan New Mexico
 (Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 5859.8 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Propose to drill with rotary tools well of sufficient depth to test Pictured Cliffs formation at approximately 1800 feet. Expect to set approximately 100 feet of 8-5/8", 9-5/8", 10-3/4" or 13" surface casing and approximately 1800 feet of 5 1/2" or 7" production casing. Surface casing will be cemented to surface and production casing will be cemented with not less than 50 sacks. If considered desirable to increase production potential, will plan to shoot well with nitro-glycerine. Propose to drill in and complete the well with cable tools. Copies of any logs obtained will be furnished to USGS.

NW of Section 10 is Designated Drilling Unit.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

PORT OF NEW YORK

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the activities of the Committee for the Liberation of the Americas (CLA) in the United States. The Commission is therefore unable to determine whether the CLA is a legitimate organization or a subversive one.
