Roswell, New Mexico

Att: Loyis L. Parish

Dear Lou:

Since approving your Notice of Intention to Drill on the #1 Sullivan-Frame in the Southeast Quarter Section 9-27N-9W we have received another set of plats from the San Juan Engineering Co in Farmington showing the location moved from the Southeast of the Southeast to the Northeast of the Southeast. The footage on the new plat is 990' from the East and 1650' from the South.

If this location has been moved it will be necessary to re-submit Notice of Intention to Drill showing the corrected location. It will be necessary to do this because we have already distributed the original Notice of Intention to Drill and everybody's records will be incorrect. If the location was drilled as originally filed, please disregard this letter.

Yours very truly,

Emery C. Arnold
Oil & Gas Inspector
District #3
