Dear Sir:

In response to your letter of March 22, 1972, please be advised that the subject well has been shut in and has not produced in 1972. Our current plans call for reworking the well to correct for a suspected casing leak and restoring the well to production. Approval for this work was given by the U. S. G. S. March 10, 1972 with verbal approval of revisions given by U. S. G. S. and you on March 22, 1972.

Yours very truly,

C. D. BORLAND
Area Production Manager
