DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Total Depth 6680'. 4-1/2" casing was set at 6678'. Cemented first stage with 400 sacks six percent gel cement with 1-1/2 pounds medium Tuf Plug per sack, followed by 100 sacks Neat cement. Cemented second stage with 250 sacks four percent gel cement. Tested both plugs with 3000 psi for 15 minutes, which held with no indication of pressure drop. Received full returns on both stages.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
