Re: SF 687, Six times Shut-in
for Operator's Charley-Pah
No. 2

Dear Mr. Cospers:

Reference is made to your letter of April 14, 1959.

Supplement SF 687 was issued before the initial test after workover information was available. SF 687 will be cancelled in a few days. However, if you wish to produce this well, you may consider this letter as a temporary release and am so advising El Paso Natural Gas by sending them a copy of this letter.

Very truly yours,

ELVIS A. UTZ
Gas Engineer
