17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Approval is requested for Energy Reserves Group, Inc. to construct a 12' X 12' unlined earthen pit approximately 20' west of the referenced well. The pit is to be used as a blow down pit to clear water from the tubing string.

Pit construction will take place on land previously disturbed (during drilling operations).

The well produces only a trace of water and the majority of the water comes from the well in vapor form.
