Ms Dorothy Jacquez,

Please find attached two C-104s. One for the FC and one for the PC. Per our conversation today, I do not have test data and you said that was ok.

I am also including a copy of the BLM approved completion report showing the two CIBPs drilled out at PC and FC as of 11/27/2001. We are currently trimming Wildcat Farmington, FC and PC.

I hope this meets the requirements for this well. Should you have any questions please contact me at the below number.

Sincerely,

Cherry Hlava
