SUNDRY NOTICES AND REPORTS ON WELLS

1. NAME OF WELL	2. LOCATION	3. DATE OF REPORT	4. NAME OF REPORTER
5. PURPOSE OF WELL	6. DEPTH OF WELL	7. DIRECTION OF FLOW	8. QUANTITY OF FLOW
9. CHARACTER OF FLOW	10. TEMPERATURE OF FLOW	11. PRESSURE OF FLOW	12. OTHER DATA

The operation of the device for above is as follows:

1. The device is used to measure the flow of water from a well.

2. The device is placed in the well and the water is allowed to flow.

3. The device measures the flow of water and the results are recorded.

4. The device is then removed from the well and the results are analyzed.

5. The device is then used to measure the flow of water from another well.

6. The device is placed in the well and the water is allowed to flow.

7. The device measures the flow of water and the results are recorded.

8. The device is then removed from the well and the results are analyzed.

9. The device is then used to measure the flow of water from another well.

10. The device is placed in the well and the water is allowed to flow.

11. The device measures the flow of water and the results are recorded.

12. The device is then removed from the well and the results are analyzed.
