Dear Mr. Turner:

It has come to our attention that the unorthodox unit which has been attributed to this well, consisting of 149.1 acres and being the SW Section 3-27N-9W, has not had administrative approval from Mr. Macey, Secretary of the Commission.

Order R-565-C, Rule 6-B, states that a standard unit in the North Blanco Pictured Cliffs Pool must contain between 158-162 acres. As your unit contains only 149.1 acres, it will require administrative approval. Rule 6-B of the above-named order sets out procedure for making application for administrative approval. We are enclosing a memorandum which gives the requirements of Rule 6-B in case you do not have a copy of the order. If we can be of any service to you in this matter, please let us know.

Yours very truly,

Emery C. Arnold
Supervisor, District #3
