

POST OFFICE BOX 728
FARMINGTON, NEW MEXICO

August 19, 1955.

Mr. Emery C. Arnold
New Mexico Oil Conservation Commission
District No. 3
Aztec, New Mexico.

Dear Mr. Arnold:

Re: Turner-Christine Hughes No. 2-3
SW/SW/4 Sec. 3 - 27-N - 9-W
San Juan County, New Mexico

Pursuant to our telephone conversation, we enclose reports on the above noted well:

Form C-103 - casing pressure tests - in triplicate
Form C-104 - Request for Gas Allowable - in quadruplicate

Under date of July 21, 1955 we filed Form C-110 in quadruplicate; and Form C-122-B covering well test of June 2nd, 1955 has been filed by the El Paso Natural Gas Company - tested by L. D. Galloway, their Gas Engineer.

By Order No. DC-219 dated August 5, 1955 the Oil Conservation Commission approved dual completion of this well in the Dakota and Mesa Verde formations, and directed that copies of the above noted forms be furnished to the Oil Conservation at its District Office at Hobbs, New Mexico.

In accordance with our telephone conversation, we have concluded that the order should have specified the District Office at Aztec, New Mexico - since the well is located in San Juan County - so we are furnishing the reports, with the usual number of copies, to your office.

If anything further is needed before the El Paso Natural Gas Company can be authorized to take the gas from this well, please let me know, and I shall endeavor to furnish it.

In particular, has the "Gas Well Plat" form been filed?

As you know, my office telephone number is DAVIS 5-2801.

Very sincerely yours,

C. Beeson Neal

For J. Glenn Turner OIL CON. COM.

DIST. 3

Copy: Mr. Turner - Dallas.
