(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Texaco E. & P., Inc. requests that meter calibration requirements for the attached list of wells be changed from a quarterly to a semi-annually frequency under NTL 92-5. The list well meters measure an average of 100 MCFD or less on a monthly basis thereby meeting the definition of "Low Volume Gas Well Meter". The meters are operated by Texaco E. & P., Inc. and are located upstream of El Paso Natural Gas Company CPD meters. The meters are used for production allocations.
