Mr. R. R. Spurrier, State Geologist  
Secretary and Director  
P. O. Box 371  
Santa Fe, New Mexico

Dear Sir:

Regarding the unorthodox location that Byrd-Frost have made in Section 5, Township 27 N, Range 10 W, in Kutz Canyon field, 660' from the north and east line, this location was originally made 990' from the north and east line. However, the terrain is so rough that it is almost prohibitive to drill a well at this location, and in my opinion the 660' location should be approved.

I have just talked to Mr. Slagle regarding the offset leases, and he said that he will obtain approval from any of the owners of offset leases and mail this approval to you.

Very truly yours,

Al Greer  
Oil and Gas Inspector Dist. #3.
