November 6, 1961

Well No. 24 is located 1790 ft. from [S] line and 1790 ft. from [W] line of sec. 4

<u>SW 1/4 Sec. 4</u> (1/4 Sec. and Sec. No.)	<u>27N</u> (Twp.)	<u>17W</u> (Range)	<u>MDN</u> (Meridian)
<u>Table Mesa</u> (Field)	<u>San Juan</u> (County or Subdivision)	<u>New Mexico</u> (State or Territory)	

The elevation of the derrick floor above sea level is 5300 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudlogging jobs, cementing points, and all other important proposed work)

We propose to drill this well with rotary tools to an estimated depth of 7000' to test the Mississippian formation. Approximately 500' of 13 3/8" surface casing will be run and cemented to surface. Approximately 9000' of 9 5/8" intermediate casing will be run and cemented with 250 sacks, the Dakota formation will be cemented through a stage collar in the 9 5/8" casing with 100 sacks. A 7" liner will be run from 9000' to 7000' and cemented with 200 sacks. If well is a gas completion or a high pressure oil completion, a 4 1/2" casing will be run from surface to TD and cemented. If well is a low pressure oil well and high volume lift equipment will be required, a 4 1/2" liner will be run from 7000' to TD and cemented.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

CERTIFICATION

I hereby certify that the information in SECTION A above is true and complete to the best of my knowledge and belief.

Name	W. MacLennan
Position	District Engineer
Company	Continental Oil Company
Date	November 6, 1961

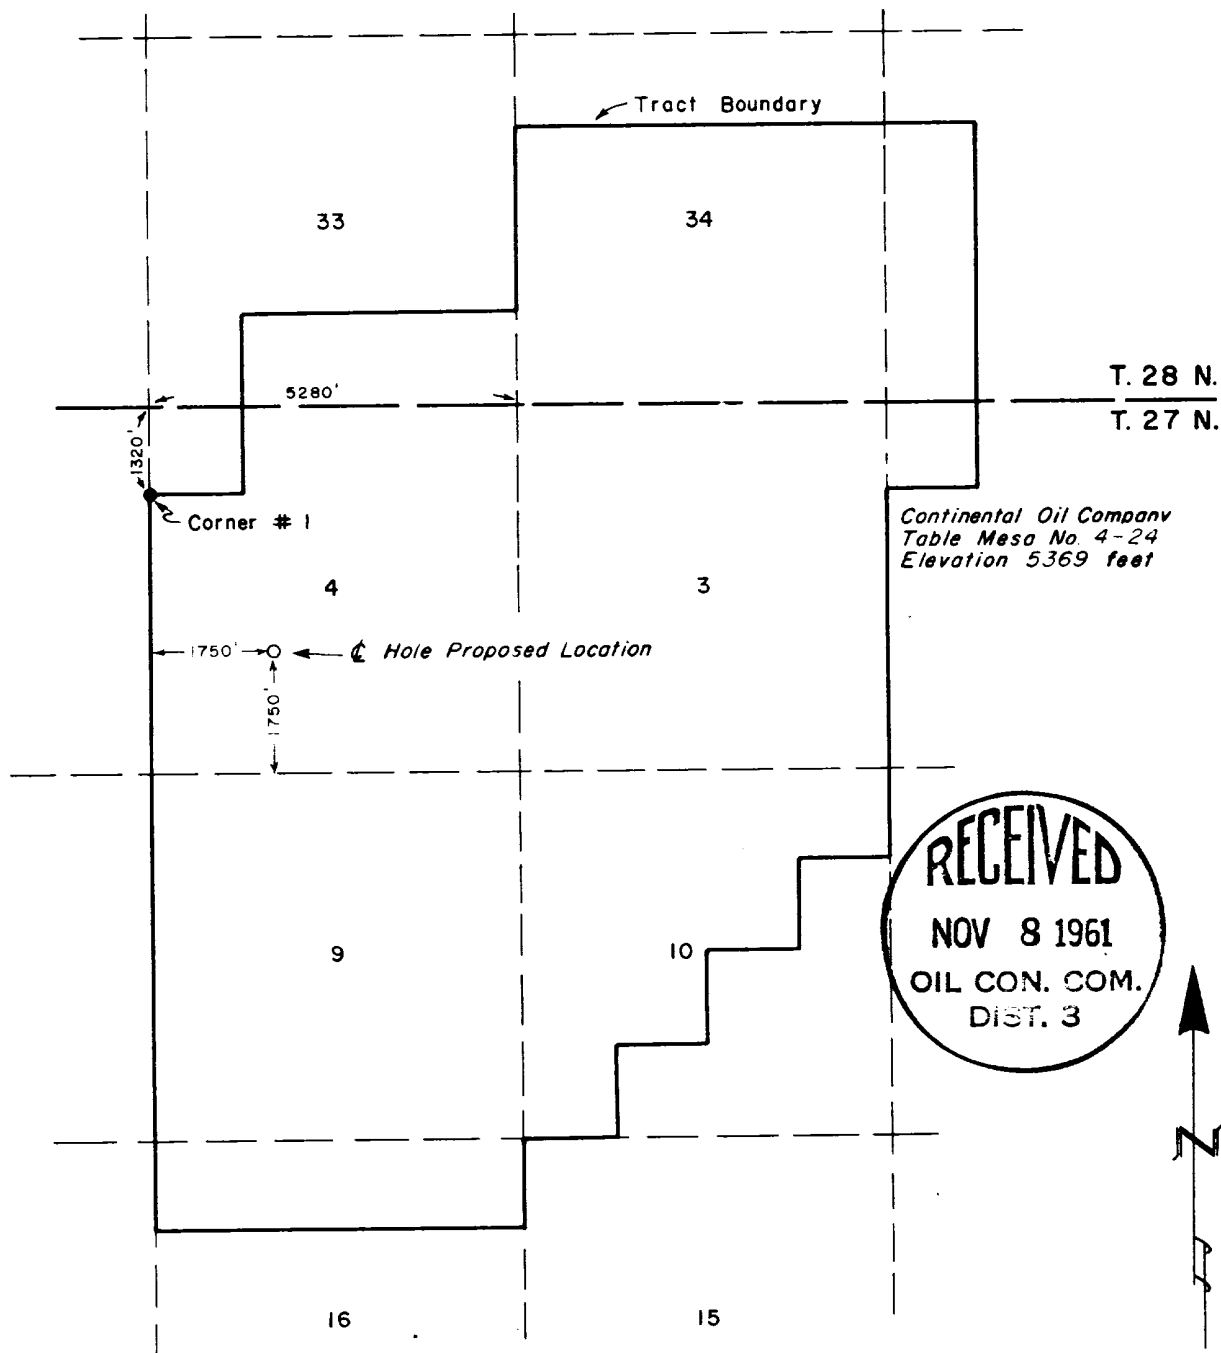

I hereby certify that the well location shown on the plat in SECTION B was plotted from field notes of actual surveys made by me or under my supervision, and that the same is true and correct to the best of my knowledge and belief.

Date Surveyed	10/27/61
Registered Professional Engineer and/or Land Surveyor	W. M. Clark
Certificate No.	3189

INSTRUCTIONS FOR COMPLETION OF FORM C-128

1. Operator shall furnish and certify to the information called for in Section A.
2. Operator shall outline the dedicated acreage for *both* oil and gas wells on the plat in Section B.
3. A registered professional engineer or land surveyor registered in the State of New Mexico or approved by the Commission shall show on the plat the location of the well and certify this information in the space provided.
4. All distances shown on the plat must be from the outer boundaries of the Section.
5. If additional space is needed for listing owners and their respective interests as required in question 3 of Section A, please use space below.

NOTE:

Section line projection based upon lease description and tract survey of November, 1950.
