This well was approved for plug & abandonment 2-11-86. Subsequently an extension to 8-1-88 was approved on 1-22-88.

This well is located on the Navajo Agricultural Products Industries (NAPI) surface, which is under cultivation. NAPI has verbally requested that any work be delayed until after potato harvest.

As this well is located on the same quarter section as the Santa Fe G #2, we would like to have the flexibility to attempt recompletion to the Fruitland Coal on this well should recompletion of the Santa Fe G #2 fail.

A sixty day extension to 10-1-88 is requested.

18. I hereby certify that the foregoing is true and correct
