13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Benson-Montin-Greer Drilling Corp. (B-M-G), as operator and owner of the Douthit #1 well, has tested the Dakota formation for gas production and has elected not to re-establish gas production.

Also, B-M-G has elected not to perforate and test the Gallup formation for oil production. However, B-M-G is offering the lease and well bore to another operator who may perforate and test the Gallup formation.

In the event this procedure fails to materialize, B-M-G will request reinstatement of the plugging and abandonment process previously filed with the Bureau of Land Management.
