13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

It is intended to Plug & Abandon the wellbore from the top of the existing fish. A cement retainer will be set at approximately 1250', an attempt will be made to circulate cement to surface and then fill the casing to surface. If cement is not circulated to surface the 4 1/2" casing will be filled with cement to 50' below surface casing where perforations will be placed and cement circulated inside and out to surface.

Steve Mason gave verbal approval for this operation on 8/15/02.
