Fulcher Kutz Pool

Dear Sir:

The reference well through June 1973 is overproduced 9895 MCF. The 1972 deliverability test shows a flow volume of 209 MCF and a calculated deliverability of 149 MCF as compared to the 1973 test flow volume of 327 MCF and calculated deliverability of 981 MCF. It is respectfully requested that the 1973 deliverability be used to calculate allowables for the remainder of 1973.

Sincerely,

  
J. D. Hicks
