Mr. Lloyd B. Taylor,
407 North Allen Ave.,
Farmington, New Mexico

Dear Mr. Taylor,

I personally tested the Foutz No 1 of the Locke-Taylor Drilling Company in Section 5 Township 27 North, Range 12 West, in San Juan County.

This well tested 682,000 cubic feet per day natural on open flow. The shut in pressure was 425#. The well was dry and made no water. It has not been shot.

Our records shows 6 5/8 casing cemented at 1217 feet with 30 sacks. Top of the Pictured Cliff was 1212 feet. The total depth is 1290 feet.

I trust this is the information that you want.

Very truly yours,

Al Greer,

Inspector
