Dear Mr. Porter:

This is to request administrative approval of an unorthodox location to be dually ~~completed~~ in the Blanco Mesa Verde and South Blanco Pictured Cliffs Extension Pools.

The well, our Florance 4-C (FM), is to be located 1600 feet from the South line and 2161 feet from the West line of Section 29, Township 28 North, Range 8 West, N.M.P.M., San Juan County, New Mexico. The W/2 of Section 29 is dedicated to the Mesa Verde formation and the SW/4 of Section 29 is dedicated to the Pictured Cliffs ~~formation~~. The major portion of the SW/4 consists of a high ridge and rocky bluffs. The location has been placed on the banks of a dry wash since the cost of an orthodox location would be extremely expensive.

El Paso Natural Gas Company holds the lease in the SE/4, therefore; the approval of other operators has not been sought.

I am enclosing two copies of the Certified Well Location Plat and two copies of our Intention to Drill.

Yours very truly,

ORIGINAL SIGNED E. J. COEL
