El Paso Natural Gas Company

El Paso, Texas

April 23, 1958

New Mexico Oil Conservation Commission
Post Office Box 871
Santa Fe, New Mexico

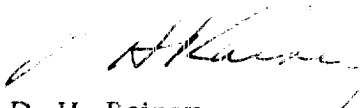

Gentlemen:

According to information in our files, the deliverabilities as shown on the Proration Schedules are reversed for the El Paso Warren "A" No. 2, Section 23, 28N, 9W and the El Paso Warren No. 4, Section 14, 28N, 9W. The deliverability on the Warren "A" No. 2 should be 786 MCF/D (see Supplement NW 3039 dated 2/19/58) and the deliverability on the Warren No. 4 is 357 MCF/D (see Supplement NW 3038 dated 2/19/58).

As was previously stated, these wells are carried on the Proration Schedule with the deliverability reversed.

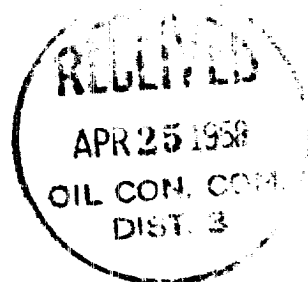

At your earliest convenience, will you please correct the allowables from what has been carried in the schedules to that reflected on the supplement.

Yours very truly,

D. H. Rainey
Proration Department
