Warren #4 H-14-28N-9W

Dear Herman:

I witnessed packer leakage retests on the referenced wells on 5-24-84. The Warren #4 has a packer or tubing leak. In order to comply with Rule 112-A and the order authorizing the multiple completion, please initiate remedial action as soon as possible.

The San Juan 28-7 Unit #91 and the San Juan 29-7 Unit #44-A were ok.

If you have any questions, please contact this office.

Yours truly,
