

ADMINISTRATIVE ORDER  
OF THE OIL CONSERVATION COMMISSION

Under the provisions of Rule 112-A, Aztec Oil & Gas Company made application to the New Mexico Oil Conservation Commission on August 29, 1966, for permission to dually complete its Largo Federal Well No. 1, located in Unit L of Section 34, Township 27 North, Range 8 West, NMFM, San Juan County, New Mexico in such a manner as to produce gas from the Blanco-Mesaverde Pool and the Basin-Dakota Pool.

NOW, on this 19th day of September, 1966, the Secretary-Director finds:

- (1) That application has been duly filed under the provisions of Rule 112-A of the Commission's Rules and Regulations;
- (2) That satisfactory information has been provided that all operators of offset acreage have been duly notified; and
- (3) That no objections have been received within the waiting period as prescribed by said rule.
- (4) That the proposed dual completion will not cause waste nor impair correlative rights.
- (5) That the mechanics of the proposed dual completion are feasible and consonant with good conservation practices.

IT IS THEREFORE ORDERED:

That the applicant herein, Aztec Oil & Gas Company, be and the same is hereby authorized to dually complete its Largo Federal Well No. 1, located in Unit L of Section 34, Township 27 North, Range 8 West, NMFM, San Juan County, New Mexico, in such a manner as to produce gas from the Blanco-Mesaverde Pool and the Basin-Dakota Pool through parallel strings of tubing.

PROVIDED HOWEVER, That applicant shall complete, operate, and produce said well in accordance with the provisions of Rule 112-A.

PROVIDED FURTHER, That applicant shall take packer-leakage tests upon completion and annually thereafter during the Annual Deliverability Test Period for the Basin-Dakota Pool.

IT IS FURTHER ORDERED:

That jurisdiction of this cause is hereby retained for the entry of such further orders as the Commission may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.

STATE OF NEW MEXICO  
OIL CONSERVATION COMMISSION

A. L. PORTER, Jr.  
Secretary-Director

Section 1.0 - Introduction

This document is a technical manual for the use of the [redacted] system. It provides detailed information on the operation, maintenance, and troubleshooting of the system. The manual is intended for use by personnel who are responsible for the operation and maintenance of the system.

Section 2.0 - Safety Precautions

Before operating the system, it is important to read and understand the safety precautions. Failure to follow these precautions could result in injury or damage to the system.

The following safety precautions should be followed at all times when operating the system:

- 1. Do not touch the system components when the power is on.
- 2. Do not use flammable liquids or gases near the system.
- 3. Do not use the system in a wet or damp environment.

For more information on safety precautions, see the Safety section of the manual.

The following safety symbols are used throughout the manual:

Section 3.0 - System Description

The [redacted] system is a [redacted] system used for [redacted] purposes. It consists of the following components:

- [redacted]
- [redacted]
- [redacted]

The system is designed to provide [redacted] performance and reliability.

The system is capable of operating in a wide range of environments and conditions.

Section 4.0 - Installation

Before installing the system, it is important to read the installation instructions carefully.

The following steps should be followed when installing the system:

- 1. Prepare the installation site.
- 2. Unpack the system components.
