LOG OF OIL OR GAS WELL

LOCATE WELL CORRECTLY

Company The British-American Oil Prod. Co. Address P. O. Drawer 330, Farmington, N.M.
Lessor or Tract Fed. Pullerton Field Hts Gallup State New Mexico
Well No. 8 Sec. 14 T. 27N R. 11W Meridian NMPM County San Juan
Location 1500 ft. NE of N Line and 1800 ft. SE of E Line of Sec. 14 Elevation 6187 OR
(Derrick floor relative to sea level)

The information given herewith is a complete and correct record of the well and all work done thereon so far as can be determined from all available records.

Signed Ann R. Stone

Date **October 27, 1961** Title **Field Superintendent**

The summary on this page is for the condition of the well at above date.

Commenced drilling 2-14-61, 19____ Finished drilling 3-5-61, 19____

OIL OR GAS SANDS OR ZONES
(Denote gas by G)

No. 1, from 5829 to 5843 No. 4, from _____ to _____
 No. 2, from _____ to _____ No. 5, from _____ to _____
 No. 3, from _____ to _____ No. 6, from _____ to _____

IMPORTANT WATER SANDS

No. 1, from _____ to _____

No. 2, from _____ to _____

No. 3, from _____ to _____

No. 4, from _____ to _____

CASING RECORD

Size casting	Weight per foot	Threads per inch	Make	Amount	Kind of shoe	Cut and pulled from	Perforated		Purpose
							From—	To—	
8-7/8	28.7	2-1/2	GF&I	234	Ball				
5/8	15.58	2-1/2	GF&I	6677	Ball		5029	5043	

MUDDING AND CEMENTING RECORD

Size casing	Where set	Number sacks of cement	Method used	Mud gravity	Amount of mud used
8-5/8	234	175	Pump & plug		
5 1/2	6667	450	Pump & Plug		

PLUGS AND ADAPTERS

Heaving plug—Material Length Depth set

Adapters—Material Size

SHOOTING RECORD

Size	Shell used	Explosive used	Quantity	Date	Depth shot	Depth cleaned out

TOOLS USED

Rotary tools were used from 0 feet to TD feet, and from ----- feet to ----- feet
Cable tools were used from Comp. only feet to ----- feet, and from ----- feet to ----- feet

DATES

Put to producing ~~10-26-61~~, 19

The production for the first 24 hours was 12 barrels of fluid of which 100% was oil; -----% emulsion; -----% water; and -----% sediment. Gravity, °Bé. -----

If gas well, cu. ft. per 24 hours ----- Gallons gasoline per 1,000 cu. ft. of gas -----

Rock pressure, lbs. per sq. in. _____

1. The first of these is the fact that the "The American People" is a book which is not only a collection of facts, but a collection of facts which are arranged in a way which is designed to make the reader feel that the facts are in support of the author's thesis. This is a very common method of writing, and it is one which is often used by those who are writing for a popular audience. The author of "The American People" is a man who is very well known for his ability to write in a way which is both interesting and informative. He is a man who is very well known for his ability to write in a way which is both interesting and informative. He is a man who is very well known for his ability to write in a way which is both interesting and informative.

Q. And you're not going to be able to tell me whether or not the defendant was in the car at the time of the shooting?

© 2002 Blackwell Science Ltd *Journal of Internal Medicine* 252: 103–110

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of reworking, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked," or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.
