Mr. G.B. Williams  
Astec Oil & Gas Co.  
920 Mercantile Securities Bldg.  
Dallas 1, Texas

Dear Mr. Williams:

We have just received copies of the Gas Well Plat on your #3 Reid well in the SW $\frac{1}{4}$  7-28N-9W. We note that the acreage dedicated is 260.64 acres, which makes this a non-standard unit; therefore, before you are ready to produce this well it will be necessary that you secure administrative approval of the unit. We are notifying you now so that this may be done in time to prevent delay when the well is ready for production.

We are enclosing three memorandums which explain the requirements and procedure for securing administrative approval.

Yours very truly

Emery C. Arnold  
Supervisor, District #3
