13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

This well was recently acquired from Escosoe Energy (8/1/00) and was not producing at that time. We believe the well may have a hole in the casing and propose pulling the tubing to verify location of the hole. We will attempt repairing the hole with cement and if unsuccessful we will submit an abandonment sundry notice. This well has produced in excess of 815 MMCF of gas and would justify an attempt to repair. This work is subject to rig availability.

14. I hereby certify that the foregoing is true and correct.
