If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

SOUTHLAND ROYALTY COMPANY has pump tested the Dakota formation in this well and has determined the Dakota to be uneconomic. We are currently evaluating uphole potential. When the evaluation is complete, we plan to abandon the Dakota and plug back the well to test zones uphole. We propose a January 1, 1986 deadline to allow for evaluation and approvals to plug back the well.
