Dear Sir:

Recently, Billy J. Knott of Dallas forwarded a letter to us which he had received from Al Kendrick. This was a request to file Form G-330 on a well in T27N-R13W, and a carbon of the letter was filed to the U.S.G.S. in Farmington.

Vic Cooper's notes indicate that 4 copies of the form were filed on September 1, 1972, along with two copies of the electrical logs, on the Knott No. 1 Fairfield-Corredor, section 14-T27N-R13W, in Juan County.

It would be greatly appreciated if you would check and see if your records are complete and if so 2) do you have sufficient copies to send required material to the State? We are having some difficulty in locating logs (films) and are hopeful of avoiding expense of making autositives of blueline prints.

A copy of the September filing is enclosed. Best Regards.

Sincerely,

Warren E. Carr
